TIM DEMARS

Chief Technology Officer | Full-Stack Engineering Leader | Cloud & Platform Architecture

United Kingdom | +44 74 6032 4143 | demarsgold@gmail.com | github.com/chengze126-dev

EXECUTIVE PROFILE

CTO and senior full-stack engineer with 8+ years of experience delivering scalable web platforms, high-throughput APIs, cloud infrastructure, and engineering modernization initiatives. Combines hands-on architecture and coding with technical leadership, team mentoring, DevOps, performance optimization, and product delivery. Track record includes platforms serving 120,000 users, APIs handling 2.4M requests per day, 35% fewer production defects, 28% lower infrastructure cost, and deployment time reduced from 45 to 8 minutes.

SELECTED CAREER ACHIEVEMENTS

- Scaled a B2B logistics platform to support 120,000 users while improving checkout conversion by 18%.
- Architected Node.js REST and GraphQL services processing 2.4M requests per day with sub-150 ms response times.
- Reduced production defects by 35% by introducing stronger code-review standards and mentoring 5 engineers.
- Cut infrastructure cost by 28% and deployment time from 45 to 8 minutes through microservices modernization.
- Improved page-load performance by 40% through PostgreSQL schema design and query optimization.
- Raised automated test coverage from 45% to 85% and enabled 30+ automated deployments per week.

CORE COMPETENCIES

Technical Strategy & Architecture | Engineering Leadership | Full-Stack Development | SaaS Platforms | Microservices | REST & GraphQL APIs | Cloud Infrastructure | DevOps & CI/CD | Performance & Scalability | Database Design | Code Quality | Mentoring | Production Reliability | Payment Integrations | Agile Delivery

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, HTML5, CSS3/Sass
Frontend: React, Next.js, Redux, Vue, Nuxt.js, Tailwind CSS, Vite, Jest, Cypress
Backend & APIs: Node.js, Express, NestJS, Django, FastAPI, REST, GraphQL
Databases: PostgreSQL, MySQL, MongoDB, Redis, Prisma
Cloud & DevOps: AWS, Alibaba Cloud, Docker, Kubernetes, Terraform, CI/CD, GitHub Actions
Mobile: React Native, Kotlin, Java, Swift, Dart, C#

PROFESSIONAL EXPERIENCE

Chief Technology Officer (CTO) | Wova.cc | Jul 2026 - Present | United Kingdom

- Own the technical direction of Wova.cc, translating product and business priorities into architecture, engineering roadmaps, and delivery plans.
- Lead full-stack, cloud, infrastructure, security, and scalability decisions across the product lifecycle, from design through production operations.
- Establish engineering standards for code quality, reviews, CI/CD, release management, observability, and maintainable system design.
- Partner with product and business stakeholders on technical feasibility, delivery sequencing, platform evolution, and long-term technology strategy.

Senior Full-Stack Developer | Tamadevlabs | Jul 2023 - Jun 2026 | Romania

- Led end-to-end development of a B2B logistics platform serving 120,000 users and improved checkout conversion by 18%.
- Architected REST and GraphQL APIs in Node.js handling 2.4M requests per day at sub-150 ms response times.
- Mentored 5 engineers and introduced code-review standards that reduced production defects by 35%.
- Migrated a legacy monolith to a microservices architecture, reducing infrastructure cost by 28% and deployment time from 45 to 8 minutes.
- Owned production delivery across application architecture, API design, performance tuning, cloud deployment, and operational reliability.

Full-Stack Developer | Hexin Digital Co., Ltd. | Aug 2020 - Jun 2023 | Shenzhen, China

- Built responsive React front ends and Node.js services that increased user engagement by 22%.
- Designed PostgreSQL schemas and optimized queries, reducing average page-load time by 40%.
- Implemented GitHub Actions CI/CD pipelines supporting 30+ automated deployments per week.
- Worked across frontend, backend, APIs, databases, testing, and deployment to deliver production features end to end.

Web Developer | Mingdao Interactive | Jul 2018 - Jul 2020 | Guangzhou, China

- Developed client-facing React and Express applications supporting 60+ active clients.
- Integrated WeChat Pay and Stripe APIs, enabling online payments and saving 12 hours per week of manual reconciliation.
- Raised automated test coverage from 45% to 85%, improving release confidence and maintainability.

EDUCATION

B.Eng. in Computer Science & Technology | Dalian University of Technology | 2014 - 2018
